Subject: LDWF Rec Use EA
Attachments: LA rec use 2017-07-07 (all LA, all human use).xlsx

Tim, Keith, and Barbara,

Just to recap the meeting:

- I will be sending the Solicitation of Views letter example and stakeholder list next week, once LDWF finalizes the decision of whether or not the last project in this RP.
- In addition, I would like to set up a time later next week or early the following week to discuss the projects submitted by the public to see what projects could be relevant to this effort (file that Tim sent attached). Please send me times and dates that work for you.
- Once I talk to Craig from LDWF, I will also reach out to the larger team to schedule the webinar about LDWF's proposed projects.
- Tim, Matt and I will also review the smart schedule that you provided.

Thanks again for the help and look forward to working with everyone!
